Fresenius Kabi Website Product Editor 2.0	Version: 1.14
	Date: 8/02/2024

Product Editor

The application has four primary functions:

- the Product Editor that manages the FK-US website product information, including documents and graphics;
- the ability to remove or restore products from display;
- the workflow that allows for the publishing of any product information.
- and supply all data and files to display the product information on webpages on the FK-US website.
